

Updated March 2023

Statement of Educational Objectives

St Michael's School provides a Catholic Education based on the Gospel Values where the teachings of Christ are reflected.

- To foster the full potential of all students, academically, socially, emotionally, spiritually, and physically, to live in a changing society.
- To foster an atmosphere where students enjoy learning through positive relationships.
- To teach students to think and work both independently and cooperatively.
- To develop the ability to think critically and make decisions.
- To develop self-discipline through firm, loving discipline throughout the school.
- To encourage students to work to the best of their ability.
- To cultivate and demonstrate attitudes and behaviours showing care and concern for:
 - those who are less able academically or socially
 - the environment
 - our country and
 - the world in which we live
- To facilitate students' abilities to evaluate and use appropriate technology and educational materials in all areas of the core curriculum.
- To help students develop a positive self-image through a realistic understanding of personal strengths and weaknesses.
- To promote an environment that fosters respect for self and others.
